ALL IN ONE. ALWAYS CONNECTED.
ALWAYS INNOVATING.

LIVE VIEW

Live View

Live View completely changes the user experience in the home. Stream your live video cameras on the HD screen with excellent resolution. Up to 40 camera's associated with the system will automatically appear, allowing you to easily select the desired video feed with a single touch, providing you with real-time visibility.

STREAM CAMERAS TO THE HD SCREEN

LIVE ANSWER

ANSWER THE DOOR FROM THE 7" TOUCHSCREEN

Live Answer

Live Answer completely changes the user experience in the home. Answer the door, using the Skybell Video Doorbell, straight from the 7" HD touchscreen with excellent resolution. Talk and hear responses from your front porch. Mirrors the mobile app, allowing you to lock and unlock your door as well as arm and disarm your system.

LOOKS MATTER

The IQ Panel 2 Plus is a beautiful 7" touchscreen with an intuitive HD screen. We believe your panel adds to your experience with a swipe-based pagination design that is as familiar as the phone in your pocket.

The IQ Panel is thin and sleek and acts as a digital photo frame when in sleep mode, adding to the beauty of your home.

TOUCHLESS CONNECTIVITY

Every IQ Panel 2 Plus includes a bluetooth radio that allows you to pair up to five smart phones or tablets for Bluetooth Touchless Disarming. When your panel is armed in "away" mode you simply need to come within range and it will disarm automatically. It's secure, encrypted, and individually authenticated, and you can add automation rules like "when system disarmed by authorized user, unlock the front door and turn on the porch light" making it so your home is unlocked and disarmed as you approach it and you didn't have to do a single thing to make that happen.

Consider that for a moment: your home is secure, doors are locked, system is armed, and yet moments before you walk up your front steps, everything happens automatically for you. It's powerful, it's easy, it's the way any intelligent security and smart home system should behave.

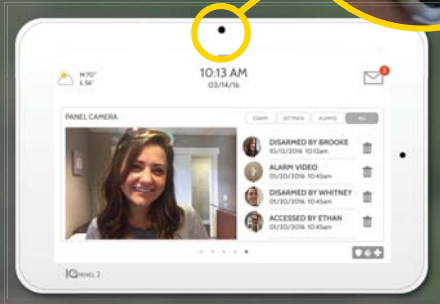

BLUETOOTH TOUCHLESS DISARMING

DISARM PHOTOS

The IQ Panel has a 5MP camera built-in to the panel itself and is capable of capturing disarm photos and alarm videos. You can even receive these photos directly to your phone as a text message.

Assign user codes to each member of your family and see when they get home with a picture texted right to your phone!

SEE WHO DISARMS YOUR SYSTEM FROM ANYWHERE

MOBILE APP

Even when you are not at home you are always connected to your IQ Panel with the Alarm.com app. Arm your system, adjust your thermostat, lock your door, view your cameras and receive notifications and alerts sent via e-mail or text message.

GEO-FENCES

SCENES

LIVE CAMERA

SMARTHOME CONTROL

SCENES

Using the Alarm.com Interactive Services, create scenes that are applicable to your lifestyle and daily habits. Use smart, connected devices around your home to create an energy efficient, intelligent ecosystem.

Create a scene that helps secure your home for bedtime. With a touch, you can lock your front door, turn on your porch lights, turn off your main living area lights and then arm your security system in "Stay" mode.

When you wake up, activate the scene to turn on your coffee maker, turn on the lights in your room and adjust your thermostat.

If you leave for work, create a scene to lock your front and back doors, turn off your lights, turn down your thermostat, close your garage and arm your security system in "Away" mode.

GEO-FENCING

System was not armed when Jenni's phone left home

Using the Alarm.com app on your smartphone, you can create automation rules to help make your home smarter and more secure. Set rules specific to when you go further than 5 miles from your home, or when you come within 1 mile of your home.

FEATURES

- Set automation rules such as "When I leave my home arm my system, lock my front door and adjust the thermostat"
- Set other rules like "When I leave work adjust the thermostat"

GEOFENCE ENGAGED

CRASH & SMASH

REST ASSURED, YOU'RE PROTECTED

In the past, an intruder could break into your home triggering the alarm, hunt down the panel to rip it off the wall or smash it before it can communicate properly to the authorities.

Using the IQ Panel, we are putting security back into security. The IQ Panel comes with Crash & Smash protection which means that when the intruder triggers the alarm, whether or not they smash the panel, it's too late. Your monitoring station knows they are there and will follow the proper protocols to dispatch your authorities.

PUTTING SECURITY BACK INTO SECURITY

With technology becoming more advanced, so are hacking strategies. There are multiple methods of hacking but the IQ Panel has prevention against these potential vulnerabilities. Types of hacking include replay attacks, jamming, network hacking and more.

The IQ Panel uses multiple avenues of protection against these kinds of hacks.

- Built-in firewall
- Cloud Token Authentication
- Secure Connection to the cloud
- Encrypted Sensors
- Visual Verification from the 5MP Panel Camera
- Jam Detection
- Bluetooth Touchless Disarming

DW MINI-S

FEATURES

- Encrypted door window sensors easily placed on anything that opens and closes
- Can be programmed as "Safety Sensor" for medicine cabinets, chemical storage, safes or storage closets
- Get notifications
- Set up automations such as "When window is open, adjust my thermostat" or "When door is open, turn on the light"
- Encrypted sensor technology protects signals sent to the IQ Panel

COMES IN:

ANYTHING THAT OPENS

RECESSED DOOR-S

FEATURES

- Easy to install into door frame
- Can be programmed as "Safety Sensor" for medicine cabinets, chemical storage, safes or storage closets
- Get notifications
- Create automation rules like "turn on light when door is opened" or "adjust thermostat if door left open"
- Encrypted sensor technology protects signals sent to the IQ Panel

**VIRTUALLY UNDETECTABLE.
OUTRAGEOUSLY SECURE.**

MOTION-S

POWERFUL MOTION DETECTION

FEATURES

- Easy mounting options in wall corners or on shelf
- Mounting option to accommodate pets under 40 lbs.
- Set up automations such as "When motion detected, turn on light" or "When no motion detected for 5 minutes, turn off light"
- Encrypted sensor technology protects signals sent to the IQ Panel

GLASS-S

ENCRYPTED GLASS BREAK DETECTOR

FEATURES

- Detects the pitch and frequency of breaking glass
- Actively listening when you are in "stay" or "away" modes
- Protects widows within line of sight within 25'
- Encrypted sensor technology protects signals sent to the IQ Panel

SMOKE DETECTOR

FEATURES

- "Always on" technology ensures the sensor is monitored around the clock, whether your system is armed or not
- Ultra sensitive smoke sensor prevents false alarms while constantly monitoring
- Heat sensor detects the rapid rise in heat that comes from a fire - even when there is no smoke (like an electrical fire)
- 3-5 year battery life

5"

ALWAYS ON FIRE PROTECTION

CARBON MONOXIDE DETECTOR

5"

FEATURES

- Especially useful in homes with high risk of carbon monoxide leaks from appliances such as stoves, furnaces, and more
- Built-in alarm sounds in addition to panel siren
- Causes panel to emit "fire" tone and alerts monitoring station of carbon monoxide
- Test button to ensure device is operating correctly

24-7 CARBON PROTECTION

IQ DIMMER

FEATURES

- Remotely offers control to turn lamps On or Off
- Plugs into any standard outlet
- Allows any lamp to become dimmable
- Set automation rules such as "Turn on at sunset" or "When someone walks into room, turn on light"
- Acts as Z-Wave repeater

CONTROL AT THE TOUCH OF A FINGER

SMART THERMOSTAT

AUTO-ADJUSTS TO SAVE ENERGY

GEO-FENCES
CREATE
AUTOMATION
RULES

FEATURES

- Remotely control your thermostat from anywhere using your smartphone
- Easily save money on your energy bills
- Standard (gas/electric) or heat pump compatible
- "Auto" feature enables automatic switching from heat to cool.
- Adjusts itself automatically when you are not at home and resume the schedule when you return
- Seamlessly integrate with your IQ Panel using rules such as "If the front door is open longer than 5 minutes, adjust the thermostat"
- Create custom smarthome automation features like "Adjust the thermostat when I leave my house" or "Adjust my thermostat when I come home"
- Create scenes with your thermostat such as a "Sleep" scene and the IQ Panel will arm the system and adjust the thermostat.

SMART DOOR LOCKS

The IQ Panel 2 supports Z-Wave door locks from Kwikset. Creating custom rules powered by Alarm.com you can arm your panel, deactivate your thermostat, and turn off your lights, all by locking your door.

FEATURES

- Program user codes from your IQ Panel 2
- Grant access levels based on user type
- Assign custom names to your doors
- Create custom schedules to activate devices automatically

INDOOR CAMERA

See what's happening at your home in real time, no matter where you are. It's easy to check up on the kids, your pets, your valuables, and see what's actually happening in the event of an alarm.

FEATURES

- Get instant alerts with smart clip capture send to your smartphone
- Live stream your home video from the app
- Trigger video recordings such as "Send a 30 second video clip when motion detected"

OUTDOOR CAMERA

Your video monitoring is connected to your IQ Panel 2 using the Alarm.com app. Use outdoor cameras to keep watch on there perimeter of your home by receiving video clips via text or email.

FEATURES

- Set custom triggers to receive alerts of activities you care about such as "Record video clip when a car pulls into the driveway"
- Tell the cameras to not record if you are home, for privacy
- Set recording to always capture footage when you are not home
- Look through recordings with a searchable library
- Automatically capture pre-alarm and post-alarm footage
- Use security sensors to see activities that matter such as when a door opens, when there is motion or if a window opens
