### IDENTITY THEFT PROTECTION SOLUTIONS

Are You Prepared?

Last year identity theft claimed over 11 million victims in the U.S., an increase of 37% over 2007. This makes identity theft the single largest and fastest growing category of crime in the United States. Last year, for every burglary in the U.S. six identities were stolen.

Economically, identity fraud costs U.S. consumers over $54 billion with an average of $4,841 in damage per victim. In addition, the personal time spent to recover from identity theft can be staggering, and resolution can take anywhere from months to years.

At IdentaVault, we have developed a 360-degree approach to Identity Theft Protection. The three pillars of our program are Prevention, Detection and Correction.

How We Protect You

Prevention
Most Identity Theft solutions only focus on detecting and correcting identity theft. IdentaVault is able to prevent fraud before it occurs.

Detection
Early detection is essential in preventing or minimizing the damage from identity theft. IdentaVault can detect and halt fraud before real damage is done.

Correction
In the event identity theft does occur, IdentaVault members are appointed an ICFE Certified Restoration Specialist, and enjoy the coverage of identity theft insurance.

Our Solutions

IdentaVault leverages cutting edge technology and the nations' largest identity theft database to provide you with the most advanced identity theft protection available.
